WHAT IS IT?

You are a leader, a success in your chosen field. You have the position, the money and the things you always believed would make you happy. And yet... there is something missing, isn't there? What would your life be like if you were able to move that missing piece into place?

Designed with leaders in mind, this is an exclusive Mastermind Alliance for people working in harmony toward purpose, unlimited success and happiness—a revolutionary, hybrid community of leadership development, coaching and mentoring, and peer masterminding led by Founder & CEO of KRE-AT™ Tom Dutta.

An incomparable premium experience, it includes Mastermind days held quarterly at the prestigious Terminal City Club* in downtown Vancouver to provide an environment that will elevate participant's benefit from the live group experience.

"A group working in harmony will absolutely change your game. It will elevate your inspiration and creativity. It can even change what you think is possible."

"Leadership is not about titles, positions or flowcharts. It is about one life influencing another."
John C. Maxwell
