VANCOUVER, CANADA—APRIL 5, 2018
**The Courage To Come Back Award 2018,
Coast Mental Health**

THIS IS THE 20TH YEAR FOR “The Courage To Come Back Award”. This award is by nomination only and given in 5 categories. “I am pleased to have been short listed in the top 3 in the category of Mental Health for the story of my childhood and youth where I experienced illness, adversity and injury from an addicted parent.” In honour of his father who passed away Jan 2018, Tom is dedicated to using “his father’s demons as gifts to unleash the greatness in others”. Tom said “To my nominators I am proud to have you in my business network and, as high profile business people, you understood the power of my story to help make a difference to others. I honour all those who submitted their stories. While one will receive an award, every story is a winner when the story teller presents it so others can create a better outcome in their own lives. We need to stop the stigma so that others will have the Courage to share”.

Tom is an advocate in his body of work for mental health and marginalized people. Tom’s new purpose is “To Unleash The Greatness In Others.” Tom has worked for over 30 years in Corporate America as a top Executive including CEO, Board Chair and Business Owner and today is a champion for people with lives of adversity.
